IN UROZHAINÉ

A TALE OF A FAILED COUNTER-ATTACK

@RYBAR

**Excerpt from
Operational Situation:**

On June 4, 2023, the AFU launched a large-scale counteroffensive against Russian troops in Zaporizhzhia and to the southwest of Donetsk.

Units trained according to NATO guidelines were thrown into battle on Western military equipment. **Foreign mercenaries** also joined them on the front lines.

Село Урожайное - лишь одна из точек ожесточенных боев. Штурм села продолжался больше месяца, а украинцы потеряли несколько сотен человек убитыми и ранеными.

On August 15, the last Russian units were withdrawn from the village. The Storm Z unit, made up of former prisoners from the 155th Marine Brigade, was tasked with conducting a raid into the abandoned village...
